

Designer

Designers at DeSantis Breindel are smart and imaginative. They're big thinkers who redefine how brands are known and experienced. They're as passionate about strategic problem solving as they are about color, contrast, and composition. Mentored by the Creative Director and Design Director, they work closely with the account, strategy, and technical teams throughout the course of a project. We're looking for a designer who's ready to share new ideas: about designs, concepts, critiques...or even the snack of the week. **Join us.**

What You'll Do

- Work with the Creative Director and Design Director to create compelling conceptual ideas and designs that push past the brief and clients' expectations
- Invent and execute stunning designs everywhere a brand can live—web, video, marketing, events, collateral, campaigns, and more
- Manage project tasks with accuracy, timeliness, and attention to detail
- Be part of a team focused on your growth with hands-on guidance, professional development, and recognition
- Share your point of view and ideas, actively participating in our culture of collective creativity

What we're looking for

- Undergraduate degree in related art or visual design discipline
- 1-3 years of design experience
- Conceptual and design execution abilities and a solid understanding of design fundamentals, including imagery, color theory and typography
- Strong grasp of visual design for digital touchpoints
- Hands-on knowledge of Adobe Creative Suite
- Basic knowledge of popular social media platforms (LinkedIn, Twitter, Facebook, Instagram)
- Basic knowledge of Sketch and InVision
- Excellent organization and attention to detail
- Preferred: Branding experience

About DeSantis Breindel

We're a leading independent B2B branding and marketing agency, a dynamic team of strategists and designers, filmmakers and programmers, doers and game-changers. We believe that B2B brands should drive transformation, and we work together with our clients to build brands and experiences that engage clients, influence prospects, rally employees, and inspire investors. From our base in New York City, we collaborate with clients around the world to turn critical inflection points into platforms for opportunity.
